MAKER CHECKLIST

Maker To Do List

- ☐ Discuss any customization or special tweaks the user may need for the device. Ensure the best to your ability that the user knows what the device is for/how it will work.
- ☐ Discuss with user the cost of materials (including possible shipping) of the components and agree on reimbursement
- ☐ Print the Braille and collect materials
- ☐ Follow assembly guide to build the device
- ☐ Contact user to let them know it is complete (update MMC forum request page if request was through there)

Items to Give to User

- ☐ Send the User Guide (and potentially video of how the device is used) in whatever method user prefers/is possible (PDF, paper copy, ect)
- ☐ Device itself
